

XXII Meeting of Physics 2022

Contribution ID : 113

Type : key notes

The landscape of supernovae, neutron stars and black holes

Thursday, 15 December 2022 11:00 (60)

We update and discuss in this contribution the status of the theoretical and observational research in supernovae and compact objects.

Primary author(s) : HORVATH, Jorge (IAG-USP)

Presenter(s) : HORVATH, Jorge (IAG-USP)

Session Classification : keynotes

Track Classification : Nuclear and High Energy Physics
