

XIX Meeting of Physics 2020

Contribution ID : 33

Type : **video conference**

Erasmus+ Project LA-CoNGA

Saturday, 26 September 2020 15:30 (30)

The general objective of the LA-CoNGA-Physics project is to bring the digital transition closer to eight Latin American institutions of higher education in the Andean region (Colombia, Ecuador, Peru and Venezuela) with the support of local and European partners. Thus, our main objective is to offer in 2021 an educational program within the Latin American Alliance in Advanced Physics for students from Colombia, Ecuador, Peru and Venezuela.

One of the tools will be to build a virtual learning platform in Advanced Physics in Colombia, Ecuador, Peru and Venezuela.

Primary author(s) : SOLANO, Carlos (UNMSM)

Co-author(s) : Dr SOLANO SALINAS, Carlos Javier (Universidad Nacional de Ingenieria)

Presenter(s) : Dr SOLANO SALINAS, Carlos Javier (Universidad Nacional de Ingenieria)

Session Classification : Nuclear and Particles

Track Classification : Nuclear and Particles
